

Winter Special Drain Cleaning Duo!

BioOne[®] 
Keeps Drain Lines & Septic Systems Flowing

The drains in your home are a collection point for things such as grease, oil, and food. These materials build up and can cause slow, smelly drains or worse, clogged drains that can be expensive to have cleaned. Also, daily use of household detergents and chemicals destroy naturally occurring bacteria populations that every wastewater system relies on to reduce oily and organic components.

BioOne is a natural drain and septic system treatment that when applied regularly, keeps your drains running smoothly. **BioOne** safely, effectively, and economically replaces friendly bacteria to help eliminate the organic build-up in your pipes and odorous residue. Unlike other drain cleaning chemicals, **BioOne** contains no harmful chemicals or emulsifiers therefore is safer for both human handling and the environment.

+ **Mini Snake**
Drain Unclogger

With over 22 inches of cleaning power, you can quickly unclog sinks, showers, bath drains, bathtubs, and laundry tubs in 3 easy steps, without any need to remove drain covers:

1. Insert
2. Rotate
3. Retract

= **Happy Drains!**

Kiss those nasty clogs goodbye forever with this duo!

With every purchase of a bottle of **BioOne** drain cleaner, receive a **Mini Snake** for free!

Regular Price: \$64.00

Special: \$47.00
with free Mini Snake!

100% Money Back Guarantee!

After 90 days if you are not completely satisfied with the product or its performance we will refund 100% of your investment.
